Bit of a story: We are surrounded by 5 cats, and pressed against a brick wall, we look at each other nod and smash them (girl power XD... Sry boys, *cough*BlizzardGlory*cough*)

This is also for the competition... Go check it out...

(Sry about it being sideways idk how to fix it... :/)

This is a Pied Stilt

[image]

I LOVE this adorable bird..

Just to let u guys know that ill be publishing some old pics for a while... Have fun :D -Jay

Kingfisher

[image]

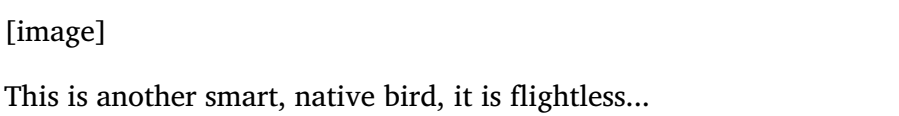
This smart little bird is native to my country, New Zealand. It is known for diving into water at incredible speed, I LOVE it its cute... XD

Starling

[image]

A lot of you will be familiar with this little pain in the neck bird, it usally flies in big mobs, pooping on everything, they have been titled PEST in many countries...

Kaka



This is another smart, native bird, it is flightless...

Greystripe

[image]

Poor Greystripe he suffered so much.

For those of you who are clueless this is from Warrior cats, I definitely recommend it.

Firefoot

[image]

My OC Firefoot got a prophecy '*Fire will destroy fire and everything you love'* and so one fateful night Firefoot smells smoke, he rushes out of the warriors den and howls a warning to them. Not many made it out alive, the deputy, his mate, his parents and two siblings died in that fire. Firefoot was devastated, but with his only siblings help (Blackspot) he manages to make deputy, and then leader... Firestar.

Betrayal

[image]

Fire loved Thunder, she really did, so when she found out that he loved someone else she is devastated... She turns evil, killing him and his lover... After her killing streak has ended she only has a couple friends left, Blizzard and Sage. With their help, she becomes strong, physically and mentallly.

Years later, she battles with the devil's that have risen from hell, she wins and nobody dies... Yet
She feels giddy, and moments later, collapses, Sage and Blizzard rushing to her side... A devil has poisoned her, but before she dies she makes peace with her enemies, and finally lets go of life, a tragic loss for one so young.

This scene is her telling Thunder how she feels, notice her claws O_o XD

Goldenstripe

[image]

Light ginger/golden she cat with a bright golden stripe down her back.

Bit of a story: Goldenkit was given to her aunt when she was a newborn, her mother unable to give enough milk for three kits, and her sister was expecting kits, so she gave Goldenkit to her sister, who changed her name to Gold. She grew up, bullied by Rains (the aunt) kits.

When she is about 10 moons old she realizes who she truly is, so she sits alone for a night, under the stars, wondering what to do. (The scene)

The next morning she secretly sets off on a journey...

Basically she travels over the mountains, facing many obstacles but when she makes it there she finds her mother and father, and family reunited she trains, gains a warrior name, and gets a mate...

AND THEY ALL LIVED HAPILLY EVER AFTER... THE END

Lol, enjoy everyone :) :D

Jays basic past..

[image]

I decided to put her past here, just in case you guys wanted to use her in a story or something :) if you want to, go ahead, you have all my permission to do so.... Enjoy!!

Jaykit is determined to be the youngest leader ever, so grows up as a kit with her best friend and her other best friend, her sister, their names are Shadowwing (paw, kit) and Sageheart (paw, kit), they go through their very boring kit hood, and become apprentices, a moon later, Jaypaw finds a secret waterhole, and teaches herself how to swim (secretly). One day, she dives to the bottom and finds a necklace, she touches it and (look at Jays necklace) happens, she swims up, deciding to keep it, and runs back to the camp, saying she found it. A few moons after being a warrior a killer strikes, killing her mate, parents, the deputy and leader. She becomes leader. A moon later her and Sageheart go to talk in the forest and the murderer leaps on Sageheart, slashing her neck and killing her instantly. Then the murderer turns to Jaystar, it was Shadowwing, her best friend had killed her sister. Shadowwing tells her to join her, so they could rule the clans together, Jaystar refuses, calling her a liar and traitor, Shadowwing attacks, there is a fight, Jaystar wins, but sits there the whole night, mourning the death of her two bestest friends. In the morning she says goodbye to them, and buried them, and leaves the clan with her two remaining lives...

Random: How Jay Dies XD

I read this book part and it asked me how my OC would die so... Here ya go

Jay would die like this: Comet was unconscious, the enemy, her former best friend standing over him triumphantly about to do the killing blow, Cloude wailed behind her, Jay growled inwardly, she would save her mate even if it killed her. With a burst of energy she bounded over as Shadowwing struck down. Taking the hit for Comet, she collapsed and as she did flicking her claws unusually long claws fiercely, slicing Shadowwings throat. Jay lay limp, feeling Cloude drag herself over, and wail her grief for her dying friend. And feeling Comet stir she let herself be overwhelmed by the darkness of death, whispering to him as he pressed his nose against him, "I'll.. Wait for you.. Forever" the last thing she felt was the tears of one of her best friends and her mate landing on her fur. She let out a last shuddering breath and her flank stilled, Jay died, surrounded in a pool of her own blood.

This is my gorgeous Jasper boy.. HE GOTS DE FWUFF

Nuuu :,,,(

[image][image] [image] [image]

I found this tiny 3 to 4 week old kitten, she looked amazingly close to Jay, it's mind blowing. Like if Jay was a real cat she would be a dark grey tabby, with black stripes... Check out this!!!

She was adorable when she looked up.. The only thing that didn't match was the eyes.

Don't think I'm torturing her, XD she was in the middle of a mew

She was all alone at a camp near a beach eating old left over Chinese food and there was milk with a thick layer of flies over top... Dad wouldn't let me take her home.. I named her... Night, after her black pelt.....
I had to leave her alone... With no human company only a blanket on a chair.

Why is the world so cruel??

I'm sick.. Again... I have thrown up 3 times today, and it's only 8am, I'm not posting this to get sympathy.. Just to tell you I probably won't be posting until I'm better...

sigh

Im going 4 40

I'm goin for forty hour... In exactly 5 hours and 50 minutes, I won't be on for forty hours... I'm living off a backpack... For forty hours... Literally

But look on the bright side, at least I'll have lots of time to draw and update *eyes flash* Jays story... Heh...

Luv u guys, I'll say goodbye in 5 hours and 50 minutes... Take care until then...

False alarm... Heh

I'll still have wifi... Heh... Sorry guys

I have no idea what to name this chapter o.o
